4. CHAIRMAN'S LETTER

Dear fellow Shareholder

On behalf of the Directors, it is my pleasure to invite you to participate in a capital raising of Beacon Minerals Limited (**Beacon Minerals** or **the Company**) via the Offer.

Beacon Minerals has a history of successfully bringing projects into production and providing returns to shareholders, with the Halley's East Gold Project and the inaugural dividend paid in September 2016.

As announced previously, rainfall in the October/November period affected earthworks at the tank farm and as a result the commissioning of the plant has been delayed. The Company expects that the commissioning of the plant to be in June 2019.

The proceeds of the Offer will be used by the Company to fund operations of the Company, including completing the construction and commissioning of the 500,000 tpa gold processing facility at the Jaurdi Gold Project and for the assessment of potential opportunities to extend minelife.

The offer price represents a 15% discount to the weighted average closing price of Beacon Minerals over the past five trading days to 4 April 2019 and is open to Shareholders holding Shares on the Record Date, being, Thursday 18 April 2019.

The Offer is fully underwritten by Patersons Securities Limited who is acting as Lead Manager and Underwriter to the Offer.

Directors Graham McGarry and Geoff Greenhill have agreed to take up their full Entitlements totalling approximately \$1.16m and are also sub-underwriting the issue for a total of approximately \$1.54m. The Offer is further strongly supported by other major shareholders in the Company who have also committed to take up their entitlements and also sub-underwrite the Offer.

The Offer is non-renounceable which means that the Entitlement is not transferable. Eligible Shareholders who do take up their Entitlements under the Offer in full or in part will not receive any value in respect to those Entitlements that they do not take up.

Yours sincerely

Geoffrey Greenhill
Executive Chairman

5. DETAILS OF THE OFFER

5.1 The Offer

The Offer is being made as a non-renounceable entitlement issue of one (1) Share for every five (5) Shares held by those Shareholders registered at the Record Date at an issue price of \$0.017 per Share (together with one (1) free attaching listed option for every two (2) Shares subscribed for and issued (**Listed Option**)). Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming no existing Options are exercised prior to the Record Date) a maximum of 418,792,257 Shares and 209,396,128 Listed Options will be issued pursuant to this Offer to raise up to \$7,119,468. No funds will be raised from the issue of the Listed Options.

As at the date of this Prospectus the Company has 883,490,321 Options on issue all of which may be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 6.4 for information on the exercise price and expiry date of the Options on issue.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 7.1 for further information regarding the rights and liabilities attaching to the Shares.

All of the Listed Options offered under this Prospectus will be issued on the terms and conditions set out in Section 7.2.

All Shares issued on conversion of the Listed Options will rank equally with the Shares on issue at the date of this Prospectus.

The purpose of the Offer and the intended use of funds raised are set out in Section 6.1.

5.2 Minimum subscription

As the Offer is fully underwritten, there is no minimum subscription.

5.3 Acceptance

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. Your acceptance must not exceed your Entitlement as shown on that form. If it does, your acceptance will be deemed to be for the maximum Entitlement.

You may participate in the Offer as follows:

(a) if you wish to accept your **full** Entitlement:

- (i) complete the Entitlement and Acceptance Form; and
- (ii) attach your cheque, drawn on an Australian bank or bank draft made payable in Australian currency, for the amount indicated on the Entitlement and Acceptance Form (or, for payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form); or

(b) if you only wish to accept **part** of your Entitlement:

- (i) fill in the number of Shares you wish to accept in the space provided on the Entitlement and Acceptance Form; and

5.4 Payment by cheque/bank draft

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "Beacon Minerals Limited – Share Offer Account" and crossed "Not Negotiable".

Your completed Entitlement and Acceptance Form and cheque must reach the Company's share registry no later than 4:00 pm WST on the Closing Date.

5.5 Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

Any application monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

The Offer is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

One (1) Listed Option with an exercise price of \$0.025 per Option and an expiry date of 17 August 2022 will be issued for every two (2) Shares subscribed for and issued under the Offer.

5.6 Underwriting and sub-underwriting

The Offer is fully underwritten by the Underwriter. Refer to Section 9.6 for details of the terms of the underwriting.

The Underwriter has entered into a number of sub-underwriting agreements in respect of the sub-underwritten Shares, including sub-underwriting agreements with Lamerton Pty Ltd as trustee for the Mac's Super Fund Account, an entity which Mr Graham McGarry is a shareholder and director, and Geoffrey Warren Greenhill and Gwenda Joy Greenhill as trustees for the Greenhill Super Fund Account. These entities have also executed firm commitments letters from the Company in respect of their Entitlements.

The maximum potential increase in voting power to Directors Graham McGarry and Geoffrey Greenhill as a result of these sub-underwriting arrangements and firm commitment letters, and the Director's individual Entitlements, is set out below.

Director	Firm Commitment Shares	Firm Commitment Value	Sub-Underwritten Shares	Sub-Underwritten Value	Current Voting Power	Voting Power Post Offer
Graham McGarry	45,573,354	\$774,747.02	62,760,705	\$1,066,931.99	10.88%	13.38%
Geoffrey Greenhill	22,662,248	\$385,258.22	27,893,647	\$474,191.99	5.41%	6.52%
Total	68,235,602	\$1,160,005.24	90,654,352	\$1,541,123.98	16.29%	19.90%

Notes:

1. Each of these parties have entered into a sub-underwriting agreement with the Underwriter and firm commitment letters with the Underwriter. Pursuant to the terms of the sub-underwriting agreement, the Underwriter shall pay each sub-underwriter a fee of 4% (excluding GST) of the sub-underwriter's respective sub-underwritten value. Pursuant to the terms of the firm commitment letter, the Underwriter shall pay each of the entities set out in the table above a firm commitment fee of 4% (excluding GST).
2. This figure assumes that (i) all Securities are issued pursuant to the Offer; (ii) the Director has taken up his Entitlement; and (iii) that the Director is obliged to subscribe for all of his respective sub-underwritten Shares pursuant to his sub-underwriting agreement. However, the obligation to subscribe for sub-underwritten Shares will reduce to the extent that the Shareholders take up their Entitlements under the Offer.
3. Any application made by Graham McGarry and Geoffrey Greenhill for any of their Entitlements pursuant to the Offer will not be permitted to be applied in relief of, or be offset against, any amount that may be subsequently due pursuant to the sub-underwriting commitment.

No sub-underwriter will increase their shareholding to above 19.99% as a result of the Offer.

5.7 Effect on control of the Company

The Underwriter is not presently a shareholder of the Company and the extent to which Shares are issued pursuant to the underwriting will increase the Underwriters' voting power in the Company. The Underwriter is not a related party of the Company for the purpose of the Corporations Act.

The Underwriter has entered into sub-underwriting agreements for the underwritten amount (being \$7,119,468). In the event that there is a Shortfall, these sub-underwriting arrangements will decrease the number of Shares to be subscribed for by the Underwriter.

In the event that the Underwriter must subscribe for Shares due to non-performance by a sub-underwriter of their obligations, changes to the Underwriter's present relevant interest (being no Shares) under several scenarios are set out in the table below.

Event	Shares held by Underwriter	Voting power of Underwriter
Date of Prospectus	Nil	0%
Completion of Entitlement Issue		
Fully subscribed	Nil	0%
75% subscribed	104,698,064	4.99%
50% subscribed	209,396,128	9.99%
25% subscribed	314,094,193	14.99%

The number of Shares held by the Underwriter and its voting power in the table above show the potential effect of the underwriting of the Offer. However, it is unlikely that no Shareholders will take up Entitlement under the Offer. The underwriting obligation and therefore voting power of the Underwriter will reduce by a corresponding amount for the amount of Entitlement under the Offer taken up by the Shareholders and Shortfall taken up by sub-underwriters. It is noted that the Underwriter does not take proprietary positions of sub-underwriting but rather sub-syndicates to sub-underwriters and therefore would not own those Shares outlined above in its own right unless a sub-underwriter did not perform their obligations.

In addition, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 16.67% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders assuming no Listed Options have been exercised is set out in the table below:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	200,000,000	9.55%	40,000,000	200,000,000	7.96%
Shareholder 2	100,000,000	4.78%	20,000,000	100,000,000	3.98%
Shareholder 3	50,000,000	2.41%	10,000,000	50,000,000	1.99%
Shareholder 4	20,000,000	0.96%	4,000,000	20,000,000	0.80%
Shareholder 5	10,000,000	0.48%	2,000,000	10,000,000	0.40%

Notes:

1. This is based on a share capital of 2,093,961,284 Shares at the date of this Prospectus.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

5.8 Lead Manager

Patersons Securities Limited has also been appointed as lead manager to the Offer. The terms of the appointment of the Lead Manager are summarised in Section 9.5.

5.9 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.017 being the price at which Shares have been offered under the Offer.

The Underwriter, in consultation with the Directors, reserves the right to issue Shortfall Securities at its absolute discretion. Accordingly, do not apply for Shortfall Securities unless instructed to do so by the Directors.

5.10 ASX listing

Application for Official Quotation of the Securities offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of the Securities offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Securities and will repay all application monies for the Securities within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

5.11 Issue

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

5.12 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

New Zealand

The Securities are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these Securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia and New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

5.13 Enquiries

Any questions concerning the Offer should be directed to Sarah Shipway, Company Secretary, on (08) 9322 6600.

Refer to Section 9.6 for further details of the Underwriting Agreement.
3. Refer to Section 9.10 for further details relating to the estimated expenses of the Offer.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure and development delays) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

Other than as contemplated by paragraph (i), a Listed Option does not confer the right to a change in Exercise Price or a change in the number of underlying Securities over which the Listed Option can be exercised.

(l) **Transferability**

The Listed Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

8. RISK FACTORS

8.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

8.2 Company specific

(a) Additional requirements for capital

Should the funds raised be insufficient to fulfil the Company's planned short-term expenditure requirements, the Company may have an immediate requirement to raise further funds. As the Offer does not contain a minimum subscription amount, this will be a risk to investors who take up the Offer.

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the capital raising.

Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be.

(b) Potential for dilution

Upon implementation of the Offer, assuming all Entitlements are accepted and no Options are exercised prior to the Record Date the number of Shares in the Company will increase from 2,093,961,284 currently on issue to 2,512,753,541. This means that each Share will represent a significantly lower proportion of the ownership of the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the prospectus being lodged of \$0.021 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.

(c) **Mining Risks**

The primary business of the Company is exploration for, and commercial development of, mineral ore bodies, which is subject to the risks inherent in these activities. Its operations are still in the exploratory phase. The current and future operations of the Company may be affected by a range of factors including:

- (i) geological conditions;
- (ii) limitations on activities due to seasonal weather patterns;
- (iii) alterations to joint venture programs and budgets;
- (iv) unanticipated operational and technical difficulties encountered in trenching, drilling, development, production and treatment activities;
- (v) mechanical failure of operating plant and equipment;
- (vi) adverse weather conditions, industrial and environmental accidents, industrial disputes and other force majeure events;
- (vii) unavailability of drilling and other equipment;
- (viii) unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment and labour;
- (ix) unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment and labour;
- (x) prevention of access by reason of political or civil unrest, outbreak of hostilities;
- (xi) inability to obtain regulatory or landowner consents or approvals, or native title issues; and
- (xii) risks of default or non-performance by third parties providing essential services.

(d) **Exploration Risks**

No assurance can be given that exploration will be successful or that a commercial mining operation will eventuate.

The ultimate success and financial viability of the Company depends on the discovery and delineation of economically recoverable ore reserves, design and construction of efficient mining and processing facilities, and competent operational and managerial performance.

There is no assurance that exploration and development of the mineral interests held by the Company (which are all at an exploration and development stage), or any other projects that may be acquired by the Company in the future, will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

Development of a commercial mining operation is also dependent on the Company's ability to obtain necessary titles and governmental and other regulatory approvals.

(e) **Exploration Costs**

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(f) **Operating and Development Risks**

The Company's ability to achieve production, development, operating cost and capital expenditure estimates on a timely basis cannot be assured. The business of gold mining involves many risks and may be impacted by factors including ore tonnes, yield, input prices (some of which are unpredictable and outside the control of the Company), overall availability of free cash to fund continuing development activities, labour force disruptions, cost overruns, changes in the regulatory environment and other unforeseen contingencies. Other risks also exist such as environmental hazards (including discharge of pollutants or hazardous chemicals), industrial accidents and occupational and health hazards. Such occurrences could result in damage to, or destruction of, production facilities, personal injury or death, environmental damage, delays in mining, increased production costs and other monetary losses and possible legal liability to the owner or operator of the mine. The Company may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past mining activities for which it was not responsible.

In addition, the Company's profitability could be adversely affected if for any reason its production and processing of gold or mine development is unexpectedly interrupted or slowed. Examples of events which could have such an impact include unscheduled plant shutdowns or other processing problems, mechanical failures, the unavailability of materials and equipment, pit slope failures, unusual or unexpected rock formations, poor or unexpected geological or metallurgical conditions, poor or inadequate ventilation, failure of mine communication systems, poor water condition, interruptions to gas and electricity supplies, human error and adverse weather conditions.

The risks outlined above also mean that there can be no assurances as to the future development of a mining operation in relation to any of the Company's projects or which the Company may acquire in the future.

(g) **Acquisitions or other strategic investments**

The Company may make strategic investments in complementary businesses or enter into strategic partnerships or alliances with third parties in order to enhance its exploration business and complement its current Jaurdi Gold Project. As at the date of this Prospectus, the Company is not aware of the occurrence or likely occurrence of any such risks which would have a material adverse effect on the Company or its subsidiaries.

8.3 Mining Industry specific

(a) **Metal Market Conditions**

The Company's ability to benefit from any future mining operations will depend on market factors, some of which may be beyond its control. The world market for gold and other minerals is subject to many variables and may fluctuate markedly.

(b) **Operations Risk**

The operations and proposed activities of the Company are subject to State and Federal laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

(c) **Mine Development**

Possible future development of a mining operation at any of the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and contracting risk from third parties providing essential services.

If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control including environmental hazards, industrial accidents, technical failures labour disputes, unusual or unexpected rock formations, flooding and extended

interruptions due to inclement hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Company will achieve commercial viability through the development or mining of its projects and treatment of ore.

(d) **Failure to satisfy Expenditure Commitments**

Interests in tenements in Western Australia are governed by the mining acts and regulations that are current in those States and are evidenced by the granting of licences or leases. Each licence or lease is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to or its interest in the Tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

8.4 General risks

(a) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to

reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(d) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

(e) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

(f) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

8.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.
